#### 

Te Rā Tūhura invites secondary school

students with an interest in health sciences, medical tauira and junior doctors to noho tahi while exploring their medical career pursuits. It provides an opportunity for rangatahi to realise their potential, and sees our medical tauira and junior doctors seeking better understanding of the journey ahead in shaping their medical careers. Medical Colleges will be onsite hoping to convince rangatahi about the benefits of training within their respective disciplines and hopefully have some spot prizes for the winning! The day's end will be adorned with ancient sounds of Haumanu Collective taonga puoro practitioner, Libby Gray

Nau mai!
